

aerobic respiration 35/36

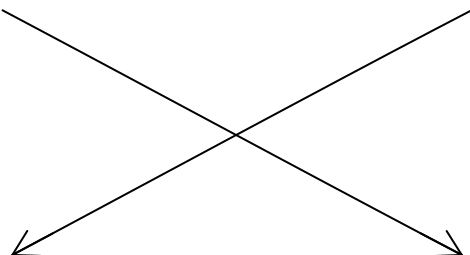

cellular respiration 44/45

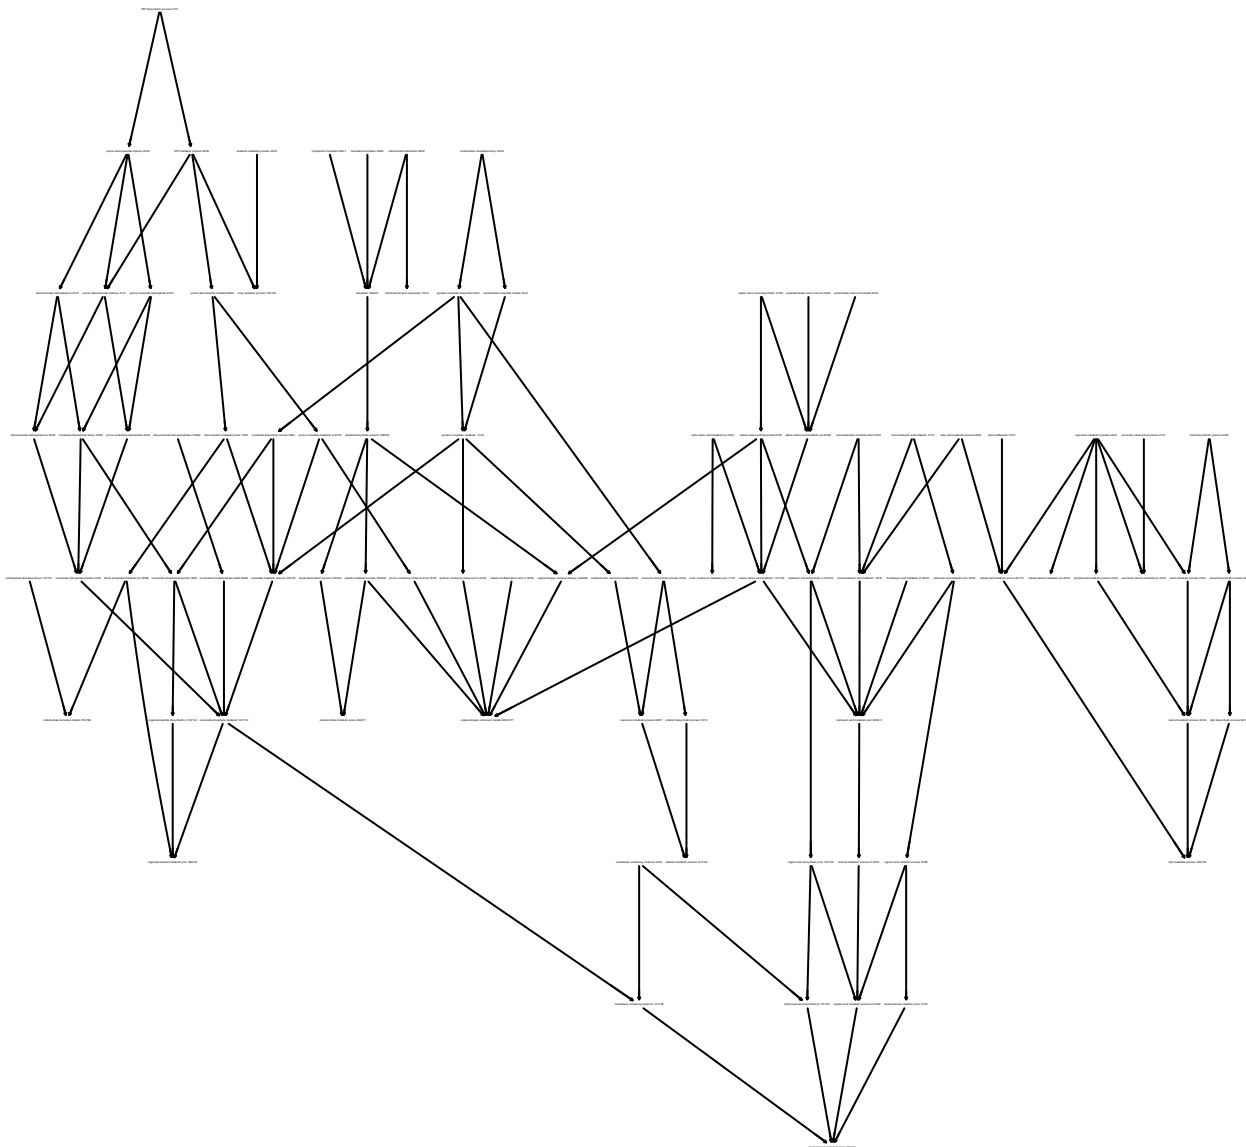

energy derivation by oxidation 60/62

electron transport chain 32/32

oxidation-reduction process 184/187

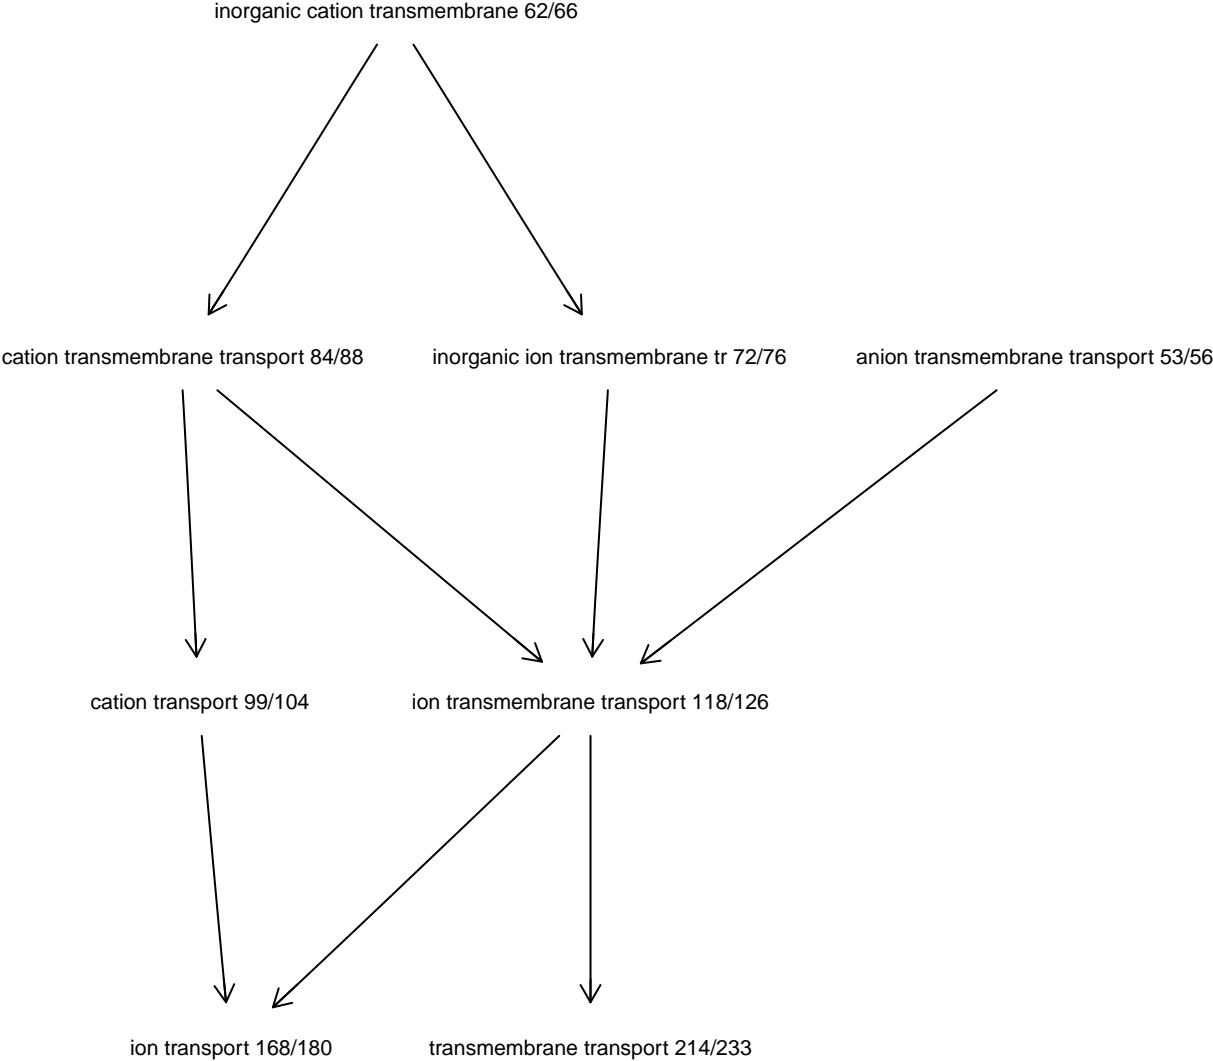

generation of precursor metabo 89/91

mitochondrial respiratory chain 23/23

mitochondrion organization 145/154

ribosomal large subunit biogen 40/41

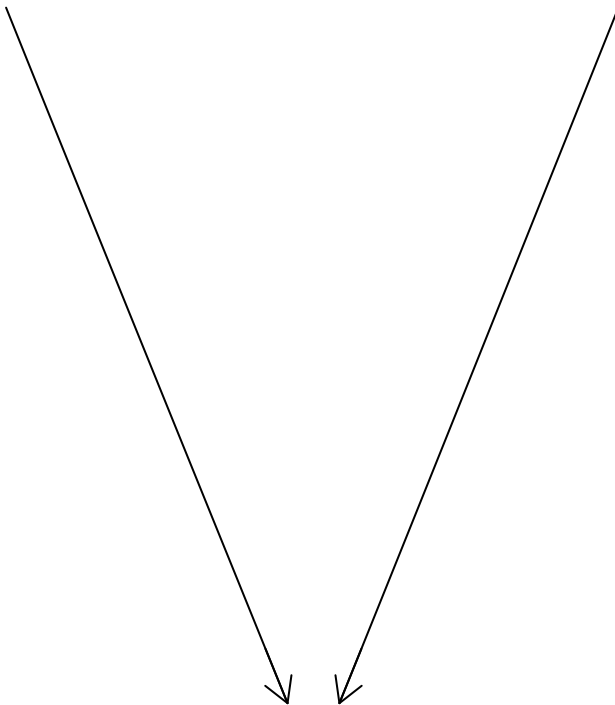

cellular iron ion homeostasis 26/26

iron ion homeostasis 27/27

response to toxic substance 27/27

cellular response to chemical 172/188

response to chemical 254/281

cellular glucan metabolic proc 25/25

glucan metabolic process 25/25

cellular homeostasis 109/118

regulation of biological quali 255/283

cellular carbohydrate metabolism 63/67
